

# MTSS Can Improve Academic Outcomes for All Students...

When Processes, Instruction and Interventions All Align

For more information and to discuss how CORE can help you get the most benefit from MTSS, call **888.249.6155** or email **ldiamond@corelearn.com**.

The long-term success of MTSS is often determined by how well it has been designed and implemented. While there is no one “right” way to implement MTSS, there is a proven process for developing systems that will ensure successful implementation and lasting change.

Our **Designing and Implementing Multi-Tiered Systems of Support (MTSS) Institute** assists school leadership teams to implement MTSS as a coordinated PreK-12 system of academic and behavior support. Over three days, you'll focus on the academics within MTSS. CORE MTSS math and reading experts will teach your team the knowledge and skills to achieve successful implementation and ensure sustainable, lasting change.

You will:

- Learn the elements of successful school-based implementation.
- Discover the key roles and responsibilities of school leaders and school-based teams.
- Master scientifically sound measures for universal screening and progress monitoring.
- Learn proven processes for qualifying students for special education and creating specific and rigorous individualized education program (IEP) goals.
- Learn to design comprehensive, coordinated, and evidence-based instruction and intervention strategies across tiers of increasing intensity in reading and math.
